The Creel Inn, a fine restaurant and public house offering "Seafood specialities & much… much… more"

The Creel Inn has a close relationship with LightQuick Web Design. We have recently created the Creel Inn's main website using the Joomla Content Management System. The Creel Inn had a website using traditional HTML technology but it was no longer "cutting the mustard" and it was time it was brought into the 21st Century.

The following image shows a simple and traditional design in keeping with the image of the Creel Inn with three navigation menu .The banner displays samples of The Creel Inn's beautiful dishes as well as showing the beautiful village and bay of Catterline.

Testimonial :

"Lightquickness took my old site and transformed it. Paying attention to detail and providing us with what WE wanted. The attention to technical detail and the ease of ongoing management and updating information is a dream come true"

Robert Lindsay
-
The owner of the Creel Inn

Please Click on the image below to visit the Creel Inn's new website...
