Property Oxon,
an independently owned firm specialising in Residential Letting and Property Management.

Property Oxon has a very good relationship with LightQuick Web Design. We created Property Oxon's main website using traditional HTML technology but it is such a nice and unique site that we still like to demonstrate it. This site shows that if you require a completely unique site that is not based upon any existing template then we can do it for you using traditional HTML techniques.

Property Oxon required a website in order to publicise their letting and management activities. LightQuick created the site for Property Oxon, created a new identity and created their logo.

The following image shows the simple but traditional design in keeping with the image of Property Oxon. The page follows standard web practice having two navigational menus, one to the left hand side of the page and one javascript top menu , with drop down sub-menus. The main page shows Property Oxon's rental properties whilst the pages withiin sport Flash movies of property interiors.

Please
click on the image below to visit the actual site.

We use the following information on Property Oxon's Landing Page to ensure that the content is relevant to the google search terms likely to be used by the potential googling customer. Search engine friendly tools are in place to ensure that Google finds Property Oxon and to help place it near the top page of Google.
